‡ Document not obtainable.

Explanation

Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 63d Congress, 3d session, is to be understood.

Sales of Government Publications

The Superintendent of Documents, Washington, D. C., is authorized to sell at cost of paper and printing any United States public document in his charge, the distribution of which is not otherwise provided for.

Publications can not be supplied free to individuals nor forwarded in advance of payment.

Publications entered in this catalogue that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document. A double dagger (‡) indicates that the document is not obtainable. Whenever additional information concerning the method of procuring a document seems necessary it will be found under the name of the Bureau by which it was published. The Senate and House documents and reports are issued in limited editions and, unless otherwise indicated, may be obtained only through Members of Congress.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing Department, Bureau, or Division, and the title of the publication. If the publication is numbered, give the number also. Every such particular assists in quick identification. Do not order by the Library of Congress card number.

The accumulation of publications in this Office amounts to several millions, of which over a million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold "at cost," regardless of their age or scarcity. Many of the books have been in stock some time and are apt to be shop-worn. In filling orders the best copy available is sent. A general price-list of public documents is not available, but lists on special subjects will be furnished on application.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to each Senator, Representative, Delegate, Resident Commissioner, and officer in Congress, to designated depositories and State and Territorial libraries, to substantially all Government authors, and to as many school, college, and public libraries as the limited edition will supply.

Subscription price to individuals, $1.10 a year, including index. Back numbers can not be supplied. Notify the Superintendent of Documents of any change of address.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the L. C. catalogue cards will be found at the end of the titles of the more important monographic documents. The figure following the card number (separated from it by a slanting line) indicates the number of cards required for entries suggested (title entry not included) on the cards. The price of the cards is 2c. for the first card and $\frac{8}{10}$c. for each additional card for the same title ordered at the same time. Remittances for the L. C. catalogue cards should be made to the Librarian of Congress. They can not be furnished by the Superintendent of Documents.

INDEX

An Index to the Monthly catalogue is issued at the end of the fiscal year. This contains index entries for all the numbers issued from July to June, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate numbers can not be supplied.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the **Superintendent of Documents, Washington, D. C.**, by coupons, postal money order, express order, or New York draft. Currency may be sent at sender's risk.

Postage stamps, foreign money, defaced or smooth coins, positively will not be accepted.

The coupon system has been reestablished. For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his Office in sets of 20 for $1.00. Address order to Superintendent of Documents, Government Printing Office.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Porto Rico, Samoa, or to Canada, Cuba, Mexico, or Shanghai. To other countries the regular rate of postage is charged, and remittances must cover such postage.

Notes of General Interest

We are gratified to announce the reestablishment of the coupon system which was discontinued for awhile. This system is of great convenience to remitters, and full particulars are given on the opposite page under the heading "How to remit."

Additional evidence that the spirit of cooperation is growing in the Departments, notably the Departments of Commerce and Agriculture, is furnished by the List of publications of the Department of Commerce available for distribution, 11th edition, Jan. 1, 1915, recently issued by the Departmental Division of Publications, and is of intrinsic interest to the Office of Superintendent of Documents, giving prices in all instances where prices have been fixed, and stating in a prefatory note that the publications may be obtained by purchase from the Superintendent of Documents.

Vol. 1, of the annual report of the Comptroller of the Currency, to the 3d session of the 63d Congress, 1914, furnishes material of great current interest, the most important being perhaps the information concerning the inauguration of the new Federal Reserve System, and other vital elements in the make-up of the System. It contains the usual statistics covering the national banks, and an appendix will follow as vol. 2. Vol. 1 is 25 cents in cloth.

A timely bibliography from the Library of Congress is at hand entitled, List of references on Europe and international politics in relation to the present issue, its purpose being, as stated in the prefatory note, "to indicate material upon the causes and events which led up to the present European war." The documentary material includes the different papers issued by the countries directly involved in war. Price, paper, 15 cents.

The Children's Bureau has issued no. 2 of Care of children series, under the caption Infant care. This valuable little book covers birth registration, living conditions, etc., embracing treatment of disease, contagious and otherwise, use of toys, with practical recipes for the preparation of food. Price, paper, 15 cents.

Bulletin of the United States Bureau of Labor Statistics, whole no. 160, is no. 4 of the series captioned Women in industry, bearing the full title Hours, earnings, and conditions of labor of women in Indiana mercantile establishments and garment factories. Price, paper, 20 cents.

The Glacier National Park—a popular guide to its geology and scenery, by Marius R. Campbell, is a valuable addition to the literature of American sightseeing. It is published by the United States Geological Survey as Bulletin 600, and covers the general physical and topographical features of the Park. It is finely illustrated with detached map. Price, paper, 30 cents.

The United States Bureau of Education is devoting considerable space to domestic science, and we have received Bulletin 36, 1914, Education for the home, by Benj. R. Andrews, Part 1, covering Introductory survey and equipment for household arts. Mr. Andrews gives an interesting history of the growth of household art and its literature, with a practical treatise on teaching and equipment. Price, paper, 10 cents.

Farmers' bulletins 631, 632, and 633, Growing peaches—sites, propagation, planting, tillage, and maintenance of soil fertility, Growing peaches—pruning, renewal of tops, thinning, interplanted crops, and special practices, and Growing peaches—varieties and classification, are new publications. All three are by H. P. Gould, pomologist, and give information relative to the varieties suitable for certain conditions, climate, soils, etc., in addition to horticultural practices. Price, paper, 5 cents each.

The Bureau of Standards has added to its current studies Technologic paper 43, Hydration of portland cement. Price, paper, 20 cents.

The Department of Agriculture has issued Department Bulletin 162, Horticultural experiments at the San Antonio field stations, southern Texas. It is principally devoted to fruit culture in that section, and is illustrated. Price, paper, 5 cents.

A Preliminary abstract of statistics of common carriers, year ended June 30, 1914, is now in stock. Price, paper, 25 cents. This is the current number of the series started in 1911, and all persons who desire to keep their sets intact should order at once, as in previous years there has been some shortage. It is the most comprehensive work of its nature published, covering all classes of common carriers, and embracing an introductory statement—list of carriers by steam railway included in this abstract—preliminary abstract of reports of the principal operating steam railway companies for 1914—preliminary statement of income account and profit and loss account of principal express companies for years 1913 and 1914—preliminary abstract of report of Pullman Company for 1914.

For years the great difficulty attending education in country districts was the problem of getting the children to and from the schoolhouse. Now all this is changed. The new system is set forth in Bureau of Education Bulletin 30, 1914—Consolidation of rural schools and transportation of pupils at public expense, by A. C. Monahan. Price, paper, 25 cents.

Another insight into modern educational methods is Bureau of Education Bulletin 46, 1914—School savings banks, by Mrs. Sara Louisa Oberholtzer. In 1913 over four and a quarter millions of dollars were deposited by children in these banks in the United States. Price, paper, 5 cents.

The Educational directory for 1914–15, a valuable list in great demand in former years, has appeared as Bureau of Education Bulletin 43, 1914. It gives names and addresses of university and college presidents, other educational officials, and chief officers of education in foreign countries. Price, paper, 20 cents.

Hygienic Laboratory Bulletin 98—Digest of comments on the Pharmacopoeia of the United States of America (8th decennial revision), and on the National formulary (3d edition), calendar year 1913, is in stock. Price, paper, 50 cents.

In consideration of the present prevalence and increase of foot-and-mouth disease, the Bureau of Animal Industry has reprinted in pamphlet form the article from the 25th annual report entitled The 1908 outbreak of foot-and-mouth disease in the United States, by A. D. Melvin. It contains valuable material relative to diagnosis and treatment. Price, paper, 5 cents.

Among the important serials, just received, are Mineral resources, 1913, pt. 1, price, cloth, 70 cents, and Journals of the Continental Congress, vol. 22, Jan. 1–Aug. 9, 1782, price, cloth, $1.00.

A reprint of historical interest is 63d Congress, 3d session, Senate document 711, which is, in fact, a reproduction of the Journal of the Joint Committee on Reconstruction, 39th Congress, 1st and 2d sessions, which was not printed until 1884, 48th Congress, shedding much light on some important happenings

during one of the most critical periods of American history. Price, paper, 5 cents.

A new edition of Flags of maritime nations is out. Price, $1.50. It gives descriptions, with colored reproductions, of flags of all nations, and is used extensively by officers of the Navy and merchant marine, besides having educational value useful in the teaching of history and economics.

In connection with some misconceptions which may have arisen concerning the discontinuance of the bound volumes of the Specifications and drawings of patents, it should be noted that only the bound volumes were discontinued. The single copies are still issued in pamphlet or slip form at the date of granting the patent, and are sold at the Patent Office for 5 cents each.

New numbers in the series of Special bulletins, issued by the Department of Agriculture, are:

Dec. 28, 1914.—Making farm butter in the South; Shall southern farmers build creameries?

Dec. 31, 1914.—Conveniences for handling farm cow and her products; Production and care of milk and cream.

Jan. 12, 1915.—Soy beans in cotton belt.

MARKETS AND RURAL ORGANIZATION OFFICE

NOTE.—The Markets Office was organized May 16, 1913, as a branch of the Secretary's Office, under authority of a paragraph in the miscellaneous section of the agricultural appropriation act approved Mar. 4, 1913.

In cooperation with the General Education Board of the Rockefeller Foundation, the Rural Organization Service of the Agriculture Department was organized in the fall of 1913. The work of this Service consisted of investigations in regard to the organization of agricultural communities upon a cooperative basis for the improvement of rural credit, educational, social, and hygienic conditions. The Service was financed by the General Education Board from the time of its organization to June 30, 1914. On July 1, 1914, the work of the Rural Organization Service was entirely taken over by the Agriculture Department under the authority contained in a paragraph among the miscellaneous appropriations of the agricultural appropriation act approved June 30, 1914.

Later the work of the Markets Office and of the Rural Organization Service was combined by the Secretary of Agriculture in one office, which was designated by him as the "Office of Markets and Rural Organization." The office at that time was established on the same footing as other bureaus and independent offices of the Department. It consists of "Marketing and Distribution Investigations" and "Rural Organization Investigations," both under the direction of the same administrative officer.

Topographic sheets

NOTE.—The Geological Survey is making a topographic map of the United States. The sheets of which it is composed are projected without reference to political divisions, and are designated by some prominent town or natural feature found on them. Three scales are ordinarily used, 1:62,500, 1:125,000, and 1:250,000. These correspond, approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch, covering, respectively, average areas of 230, 920, and 3,700 square miles. For some areas of particular importance special large-scale maps are published. The usual size, exclusive of the margin, is about 17.5 inches in height by 11.5 to 16 inches in width, the latter varying with the latitude. A description of the topographic map is printed on the reverse of each sheet.

Nearly two-fifths of the area of the country, excluding outlying possessions, has been mapped, every State being represented. Massachusetts, Connecticut, Rhode Island, New Jersey, and the District of Columbia are completely mapped. Sheets of the regular size are sold by the Survey at 10c. each; but in lots of 50 or more copies, whether of the same sheet or of different sheets, the price is 6c. each. In no case can orders be filled at the wholesale rate unless the sum remitted solely for topographic maps amounts to at least $3.00.

TOPOGRAPHY DIVISION

NOTE.—Post route maps corrected to the 1st of those months are distributed in April, July, October, and January to the postal service. For a list of the maps composing the set, with prices, see below. Orders for the maps should be addressed to the Third Assistant Postmaster General, Finance Division, Washington, D. C., and money orders should be made payable to him.

Since February, 1908, the Topography Division has been preparing rural-delivery maps of counties in which rural-delivery is completely established. They are published in two forms, one giving simply the rural free delivery routes starting from a single given post office, sold at 5 cents each; the other, the rural free delivery routes in an entire county, sold at 20 cents each. A uniform scale of 1 inch to 1 mile is used. Editions are not issued, but sun-print copies are produced in response to special calls addressed to the Third Assistant Postmaster General, Finance Division. These maps should not be confused with the post route maps described in the preceding paragraph.

SMITHSONIAN INSTITUTION

NOTE.—In its latest price-list the Smithsonian Institution publishes this notice: "Applicants for these publications are requested to state the grounds for their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which applicants are especially interested. The papers included in this list are distributed *gratis*, except as otherwise indicated. Publications should be ordered by the *publication number*, and arranged in sequence. The serial publications of the Smithsonian Institution are as follows: 1, Smithsonian contributions to knowledge; 2, Smithsonian miscellaneous collections; 3, Smithsonian reports. No *sets* of these are for sale or distribution, as most of the volumes are out of print. The Contributions to knowledge and Miscellaneous collections are distributed without charge only to public libraries, learned societies, institutions, and specialists in this country and abroad. The Smithsonian reports are regularly distributed by the Institution to libraries throughout the world, and only a limited number of the volumes remain to supply other demands. No general mailing-list of individuals is maintained. The reports can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C. Remittances for publications not distributed gratuitously should be made payable to the 'Smithsonian Institution.' Applications from libraries should be accompanied by a

statement of the number of volumes which they contain and the date of their establishment, and should have the endorsement of a Member of Congress."

The annual reports are the only Smithsonian publications that are regularly issued as public documents. All the others are paid for from the private funds of the Institution, but as they are usually regarded as public documents and have free transmission by mail they are listed in the Monthly catalogue.
